About Indus University

Indus University has been established with the objective of making a noteworthy contribution to the social, economic and cultural life of our country.Having faith in the power of education, the builders of this university intend to impart knowledge to youngsters of society.

The three pillars on which this university firmly stands on are – educational wisdom, professional brilliance, and research & innovation, all of which are aimed at nurturing a spirit of entrepreneurship and social responsibility.

Indus University offers UG, PG and Doctoral degree programme in diverse disciplines of engineering. It has following constituent institutes.
- · Indus Institute of Technology & Engineering
- · Indus Institute of Management Studies
- · Indus Institute of Special Studies
- · Institute of Sciences Humanities & Liberal Studies
- · Indus Institute of Information & Communication Technology
- · Indus Institute of Design Environment & Architecture
- · Indus Institute of Aviation Technology & Engineering
- · Indus Technology And Smart Solution Centers

About IITE

Institute of Technology & Engineering provides work and play environment to boost students persona and intellect quotient all through the academic period. While they are exposed to fieldwork, much weight is given to research and development in the fields of engineering. Students are encouraged and supported in a variety of ways to plan and execute startups. High-class laboratories and modern tools are available to ease the journey of booming startups and innovation. Faculty members at ITE play a significant role in building entrepreneurs par excellence.

About CE Department

Indus Institute of Technology and Engineering is one of the flagship institutes of Indus University. It aims at providing innovative education on par with the industry needs and marshals the brightest minds as a global pool of professionals. At ITE, we offer UG, PG and PhD programmes in various streamsof Engineering.

Event Objective

• Understanding Basics of Artificial Intelligence, Machine Learning and deep learning applications of Artificial Intelligence after covid Pandemic

• Human Diseases and deficiency detection with Live Demonstrations

• Introduction and application of SVM Project Base also demonstration using SVM to grow India after Covid Breakdown

• Understanding And application of typesof Regressions

• Introduction and advantages on ANN over other Neutral Network
